

NEWS RELEASE

New Health Canada Regulations Allow for Substantial Increase in MYM Vault Size

Vancouver, B.C., July 27, 2017 – **MYM Nutraceuticals Inc.**, (CSE: **MYM**) (the “Company” or “**MYM**”) is extremely pleased to announce that Health Canada has introduced new regulations that will allow for a substantial increase in production at the Laval location vault size. The new regulations will increase the authorized capacity of the vault size from 320kg to 1000kg of dried cannabis. At full capacity, the increase in vault size represents an additional \$3,400,000 in gross revenue.

The new regulations enable MYM to manage the production of cannabis products based on the capacity and security of the vault. Secondly, low-value cannabis waste products will not be included in the maximum authorized storage capacity. This will create additional storage space in the secure vault for finished cannabis products.

Under the new regulations, MYM will no longer have to wait for Health Canada to conduct a pre-license inspection to begin cultivation. MYM will now be required to demonstrate that the location is in good working order. Health Canada will follow up with inspections during the cultivation of cannabis.
